

# Introducing TranZibit.<sup>TM</sup> The tradeshow table with an inside story.

A table is just a table. Right? Not anymore. TranZibit is designed from the inside out, with extra features that ordinary tables just don't have. **Portability.** TranZibit folds into a compact case that you either *carry* (with padded canvas bag and shoulder strap) or *pull* on heavy duty steel casters. Retractable handles on three sides make it a snap to grab and go! **Storage.** Before now, a table was designed for one thing, to be a table. TranZibit is different. The table skirt packs neatly

inside, held in place by our built-in bungee system. Other unique features include

a handy literature compartment and foam insert caster storage. **Utility.** The table skirt is quickly and easily attached with our build-in Velcro strip system.

Transform from 29" table to 39" counter height in minutes with snap-lock telescopic legs. Recessed top panel allows space to apply large format graphics, and when all four casters are inserted, TranZibit can be towed as a dolly. **Durability.** TranZibit is built to last, with CAD precision engineered injection molded body and powder coated steel frame and hardware.

PATENT PENDING

*TranZibit is designed from the inside out, with extra features that ordinary tables just don't have.*

## TranZibit opens to a full 2' x 6' and folds to 2' x 3'
