It is recommended that all text and borders be 2" from the finish size

Focus Area Key
focus area is always 3"-5" inside edge of all four sides on all skin styles and sizes
see xpressions-snap.com for details

Please add a 1.5" bleed on all sides of each file submitted.

xpressions **SNAP!**™ Setup Guide

• File Setup •

FOR GENERAL FILE SETUP CONSULT THE FULL FILE PREP GUIDELINE AT:

<http://xpressions-snap.com/guidelines.htm>

For all XSnap skins we require **1.5" of bleed OVERALL (.75" on all sides)**. If bleed is not provided to us we will do our best to add/clone your artwork when applicable. If not, we will need to bleed out your image to ensure we have enough for print/finishing. See example below:

Artwork provided
w/out bleed

Image bled out
for print size

Finished Size

• X-Factor •

Due to the nature of the Xpressions® graphics, we recommend keeping all artwork elements you do not want distorted (ie text, logos, or faces) 3-5" in on all sides. Examples below:

5" in - least amount
of distortion

3" in - distortion
becomes more apparent

1" in - distortion
very noticeable

PLEASE NOTE IF DISTORTION IS INTENDED AS PART OF DESIGN
