It is recommended that all text and borders be 1.5" from the finish size

### Focus Area Key

focus area is always  
1.5"-2.5" inside edge of all  
four sides on all skin  
styles and sizes

# xpressions<sup>®</sup> SALESIMATE<sup>™</sup> Setup Guide

## • File Setup •

FOR GENERAL FILE SETUP CONSULT THE FULL FILE PREP GUIDELINE AT:  
<http://xpressions-snap.com/guidelines.htm>

For all XSnap skins we require **1.5" of bleed OVERALL (.75" on all sides)**. If bleed is not provided to us we will do our best to add/clone your artwork when applicable. If not, we will need to bleed out your image to ensure we have enough for print/finishing. See example below:

Artwork provided  
w/out bleed

Image bled out  
for print size

Finished Size

## • X-Factor •

Due to the nature of the Xpressions<sup>®</sup> Salesmate<sup>™</sup> graphics, we recommend keeping all artwork elements you do not want severely distorted (ie text, logos, or faces) 3-5" in on all sides, however due to the small size of the Salesmate<sup>™</sup> skins this leaves little room for design. We find that **1.5" in** on all sides creates an acceptable amount of stretch while still allowing plenty of space for your design.

EXAMPLES OF STRETCH AT DIFFERENT SIZES SHOWN BELOW:

\*PLEASE NOTE IF DISTORTION IS INTENDED AS PART OF DESIGN\*
